

I do not want the Indiana do not call list to be weakened at all. My time is very precious to me. I work and go to school full time, and do not want the little time that I have to spend with my son to be interrupted by unwanted sales and marketing calls. If the government is for the people and by the people, then I would hope that you will listen to the will of the people and do not let the banks undermine the law Indiana citizens view as an asset to our lives.
